Are you part of what is known as the “Sandwich Generation” where you have children at home and parents needing additional help? Or maybe you are a senior needing to make sure you have a plan for your future care.

As baby boomers age and life expectancies increase, it is more important to educate yourself about the steps you can take now to reduce stress later.

We intend to educate you on circumstances people will experience and how to prevent problems. You’ll leave being able to answer the following questions:

- How are mom and dad (or you) going to pay for care?
- Doesn’t Medicare cover some?
- Should we sell mom and dad’s (or your) home if there is a need for assisted living?
- Can money be gifted to prevent it from going to the government or care facility?
- If we needed \$50,000 within a month; where should we get it?
